Energy Efficiency Workshops for Students

March 2022

**Promoting Energy Efficient Buildings through
Strengthening Low Carbon Energy
Island Strategies (LCEI) Project**

Energy Efficiency Workshops for Students

The objectives of conducting the workshops for schools were to increase awareness of energy end-users, the public, students and the youths. The workshops were tailor made for secondary school students, aimed at improving student's knowledge on energy efficiency, also enabling them to raise awareness among their parents and families. The workshops were targeted towards 13 to 17-year-old students. In 3-year, period from 2016 to 2018 nine workshops was conducted to schools in 9 Atolls. A total of 420 students and 38 teachers participated in the workshops. 59% of the students were female and 42% were male students.
