S.no	Clarification required	Answers
1	The TOR mentions projections of GHG emissions, would this be in line with the projection described in BUR using LEAP?	Yes
2.	If so, will base data used for previous projections be available? Will Ministry provide the license for the LEAP software or consultant would need to acquire the license?	Ministry will provide all available and relevant data. Additional data required to complete the tasks will need to be collected by the consultant. Ministry will provide the license for the LEAP software.
3.	As GHG inventory and NDC tracking chapters are subject to review, does the consultant need to consider participation and contribution to FMCP and TER process post submission of BTR?	The FMCP and TER process is not included as a task of the consultant for this assignment.
