Answers to questions received with reference to Announcement Number (IUL)438-
CCD/438/2024/511 dated 06 November 2024,

Consultancy service to develop a project concept note for a proposed mitigation technology
identified under TNA (3rd Announcement)

14 November 2024

Please find below answers for clarification for the above bid.

#	Clarification required	Answer
1	The TOR states that the consultant needs to develop a concept on the chosen funding agency's format ? Please elaborate on what these funding agencies (GCF, CTCN or bilateral) may be and when will the consultant know which funding agency is chosen by MCCEE? The main rationale being, depending on the format of funding agency the resources including consultants working days may vary hence it would be difficult to propose a competitive proposal.	The concept note needs to be developed in accordance to CTCN template
2	Could you confirm the funding agency for the identified mitigation technology? As various funding agencies have distinct templates for Concept Notes, knowing the specific agency will enable us to align the proposal accordingly.	Please refer to the answer to query 1
3	Is the consultant expected to develop a Project Concept Note solely for the Transportation sector, and if so, will it pertain to a single project within this sector?	It is a single project within this sector it also needs to align with TAP report. You may refer to https://tech-action.unepccc.org/country/maldives/

	<p>Have the primary beneficiaries of the project been determined? If so, could you kindly provide details on the intended key beneficiaries? The approach to the Concept Note design may differ based on whether the intended beneficiaries are in the public or private sector.</p>	<p>Primary beneficiaries has been defined and it includes both private and public sector</p>
